AUTHOR INDEX TO VOLUME 33

Ahmed, A. E., 1

Banerjee, J., 283
Becker, P. J., 141
Bhalla, D. K., 171
Bhattacharya, S., 283
Biondo, N., 197
Bishop, C., 521
Blackwell, B., 327
Bolger, P. M., 93
Bouwman, H., 141
Boyer, I. J., 93
Braselton, W. E., 197
Brooks, R. J., 521
Bursian, S. J., 197

Carey, J. H., 521
Castranova, V., 303
Chrosniak, C. E., 115
Chu, I., 317
Colborn, T., 395
Cooppan, R. M., 141
Costa, L. G., 349

Dalal, N. S., 303

Edsall, C. C., 375
Elsayed, N. M., 19

Farooqui, M. Y. H., 1
Fox, G. A., 359, 455
Frankenberg, L., 1

Gastel, J., 349
Gaylor, D. W., 327
Ghanayem, B. I., 1
Ghosh, N., 283
Ghosh, P., 283
Gilbertson, M., 455

Hirayama, K., 47

Iguchi, H., 263
Ikeda, M., 263
Imai, M., 157
Inouye, M., 47
Iwami, O., 263

Johannsen, F. R., 291

Kajiwara, Y., 47
Kang, J. H., 303
Khan, A. A., 57
Kim, H. L., 229
Kimbrough, R. D., 81
Kitabatake, M., 157
Klain, G. J., 19
Kokoski, C. J., 93
Korte, D. W., Jr., 19
Kozumbo, W. J., 29
Kubiak, T., 455

LaKind, J., 103
Lean, D. R. S., 521
Lessenger, J. E., 255
Levinskas, G. J., 291
Lillie, L. E., 57
Ludwig, J., 455

Mac, M. J., 375
Mahavni, V., 171
Mallol, J., 189
McClure, T., 171
Mitra, S., 283
Moore, G., 327
Mose, D. G., 115
Mumtaz, M. M., 1
Murphy, S. D., 349
Mushrush, G. W., 115

Nakano, H., 157
Nakatsuka, H., 263
Ng, P., 521
Nguyen, T., 171
Ngxongo, S., 141
Nogues, M. R., 189
Norstrom, R. J., 521

Omaye, S. T., 19
Otson, R., 317

Pedersen, K., 273
Polin, D., 197
Prior, M. G., 57

Rajaraman, S., 1
Rao, V. R., 229
Render, J. A., 197
Rifkin, E., 103
Riley, N., 255
Rubin, R. J., 29
Rusch, G. M., 291

Schimmelpfeng, J., 131
Schroeder, R. E., 291
Secours, V. E., 317
Seidel, A., 131
Stabell, O. B., 273
Steffenak, I., 273
Su, I., 197
Swain, W. R., 587

Underdal, B., 273
Underwood, M. S., 197

Vaddi, K., 65
Valli, V. E., 317
Vallyathan, V., 303
Van Dyke, K., 303
Villeneuve, D. C., 317

Watanabe, T., 263
Wei, C., 65
Wiggers, P. A., 197
Wolff, G. L., 327
Wren, C. D., 549

Yong, S., 57
Yoshida, K., 157

Zalups, R. K., 213

SUBJECT INDEX TO VOLUME 33

2-Acetylaminofluorine, bladder and liver tumorigenesis induced by, 327
Acetylcholinesterase, human fetal, marker effect of neurotoxicity, 283
Ammonium metavanadate, effect of on mouse peritoneal macrophage lysosomal enzymes, 65
Asbestos and quartz, cytotoxic effects, 131

Bald eagles, epidemiology of, 395
Butyl 2-Chloroethyl sulfide, and metabolic changes in mouse kidney, 19

Cadmium, copper, manganese, and zinc levels in urine, 263
Carcinogens and tumor promotors, binary effects of, a chemical structural analysis of BCIDB and PCIDB, 237
Chlorinated propenes, subchronic inhalation toxicity and reproductive assessment in rats exposed to, 291
Coal coprocessing products, short-term dermal toxicity and mutagenicity of in rats, 317

DDT levels in serum, and malaria control, 141
Dicofol, neurotoxicities and behavioral changes after exposure to, 255
N,N'-Dimethylaminopropionitrile, urotoxic effects of, 1
Dimethyl phthalate, mutagenicity and metabolism of and binding to epidermal and hepatic macromolecules, 29
Dioxin and PCBs, role of FDA in establishing tolerable levels in aquatic organisms, 93
Dioxin bioaccumulation, and risk assessment methodology, 103

Ethoxyquin, accumulation of in tissue, 229

Fish, benefits and perceived risk of consumption, 81
Formaldehyde, acute exposure, effects of on nasal epithelia in rats, 171
Formamidine pesticides, chlordimeform and amitraz, decrease in hepatic glutathione, 349

Great Lakes Embryo Mortality, Edema, and Deformities Syndrome (GLEMEDS) in colonial fish-eating birds, 455

Hydrogen sulfide, cytotoxic effects on PAM in rats, 57

Mercury, renal accumulation and intrarenal distribution of in rabbits, 213
Methylmercury and x-radiation, combined effects of on developing mouse cerebellum, 47
Mink and otter, cause-effect linkages between chemicals and populations of, 549

Organochlorine chemicals, effects of on reproductive outcome in humans who consumed contaminated fish, 587

PBBs, elimination of in rats, effect of mineral oil and/or feed restriction, 197
PCBs and dioxin, role of FDA in establishing tolerable levels in aquatic organisms, 93
Practical causal inference for ecoepidemiologists, 359

Radon, seasonal variations in northern Virginia, 115

Shellfish toxin diversity, as revealed by biological and chemical assays, 273
Silica dust, ability of Prosil 28 to reduce biological reactivity, 303
Snapping turtle egg development and environmental contamination, cause-effect linkage, 521
Sulfate aerosols and antigen, effects of on breathing curve patterns in guinea pigs, 157
Thioether excretion in urine, and air pollution, 189
Trout, lake, environmental contaminants and reproductive success of, 375
